## *Beyond Boundaries:* **A COMMITMENT TO PROVIDING LIMITLESS SERVICE**

In the rapidly evolving landscape of contemporary society, companies are continually endeavouring to exceed expectations and adapt to the dynamic needs of their customers. At YonMing, our devoted team of professionals consistently strives to guarantee our clients' enduring contentment.

### **Where Experience Meets Innovation**

Our workshop facility is designed to accommodate large vehicles and is operated by a team of experienced technicians who specialize in maintenance services. Equipped with modern tools and technology, our workshop is dedicated to providing support for our clients' commercial vehicles.

### **Drive with Confidence**

Our Res-Q Team has more than 20 operational vehicles to expand our services. We offer equipment repair accessible via the YM App or a phone call to our team.

### **Explore Endless Options**

A diverse selection of parts is available for easy purchase on our platform, catering to a wide range of customers' needs. They can browse inventory and contact our team for help with choosing the right products.

### **Quality Assurance and Logistics Teams Partner for Unbeatable Delivery Service**

Our Quality Assurance and Logistics teams work together to ensure excellent service. With a dedicated Delivery Team and a fleet of over 60 vehicles, we guarantee timely and efficient order fulfillment.

## THE HAULING EXPERTS -SHACMAN

As the **OFFICIAL DISTRIBUTOR OF SHACMAN TRUCKS in Malaysia**, our company offers a range of exceptional truck models, including the Prime Mover and Enhanced X Series. With a wide network of service locations, support branches, and a dedicated 24-hour Res-Q Team, we provide comprehensive nationwide assistance and support for all Shacman vehicle owners, ensuring their peace of mind and satisfaction.

**YONMING® EURO USED PARTS**

## THE ULTIMATE DESTINATION FOR QUALITY TRUCKS USED PARTS

YonMing Euro Surplus Components Sdn Bhd provides high-quality pre-owned parts from trusted European brands, emphasizing sustainability through recycling and repurposing. This approach reduces carbon emissions, minimizes waste, and delivers cost savings to customers, all while maintaining uncompromised product quality. Choose YonMing for eco-friendly and reliable solutions.

**YONMING® ACADEMY SDN BHD**

## NURTURING YOUNG TALENTS THROUGH APPRENTICESHIPS

YonMing Academy sets itself apart from other educational programs by offering a unique blend of classroom instruction and practical, hands-on experience. By combining theoretical knowledge with hands-on practice, apprentices gain a thorough grasp of heavy vehicle systems and acquire the ability to identify and resolve complex technical issues.

# WE CONTINUE TO GROW AS ONE

## Malaysia Network

Through all these years, we have grown to a total of 25 centres all over Malaysia. Many of these centres have grown into 4s centres due to heavy commercial industry needs. We have always placed an emphasis on continuous improvement, fast evolution, and innovative services. We aspire to be true one-stop-service centres in the future, offering comprehensive solutions for commercial vehicles.

## SUSTAINABLE DEVELOPMENT GOALS

### Sustainability in Action: YonMing Group's ESG Commitments Drive Success and Innovation

Sustainability is now considered a crucial factor for companies worldwide. YonMing Group excels in progress through commitment to ESG standards, influencing operations and frameworks. Their adherence showcases how sustainability boosts success and innovation. Initiatives in environmental protection, community involvement, and ethical governance form a solid foundation. YonMing Group exemplifies how ESG principles drive exceptional outcomes and a better future.

#### Green Energy

To boost efficiency at the Sungai Buloh warehouse, YonMing acquired a VNA forklift and two electric forklifts. Plans are underway to expand the fleet across branches, improving goods handling, delivery timelines, and competitiveness.

#### Solar Panels

YonMing Nilai's solar panel installation reflects its commitment to sustainability, reducing reliance on non-renewable energy and supporting global climate action.
